1 “Cats always land on their feet” is a common saying among cat lovers. If  
you have a pet cat, you might have noticed this yourself. When a cat falls down,  
it (A) [rarely / usually] turns around and lands on its feet. Many cat owners have  
been **surprised to see** this amazing ability. What gives a cat this (B) [slow / rapid]  
5 turning ability?

Scientists have been arguing about this for a long time. For a cat to begin  
rotating, there must be a turning \_\_\_\_\_. To understand this, scientists  
recorded a wild cat falling from a tree. They (C) [found / founded] the answer by  
studying the video in slow motion.

10 Cats have very flexible spines. They can turn their upper bodies in the  
opposite direction of their lower bodies. This gives them the force needed to twist  
around in the air. So if your pet cat falls down, don't worry. It should be okay.

3. M: Good afternoon, this is the captain  
speaking. We will be landing in Busan shortly.  
 You've probably already noticed the nice weather from  
 the window. It will be sunny all day, so  
 make sure you put on your sunscreen. Sadly, tomorrow  
 morning will be rainy. And there will  
 be thunderstorms in the afternoon. Remember to  
bring your umbrellas with you. Welcome to Busan!

4. W: Good morning. We are now arriving at one of the  
 biggest churches in Myeong-dong. Turn around  
 and look at that huge building. Feel free to take  
your time touring this area. You can also get  
 some coffee at nearby cafes. We have a flexible  
schedule today, so you will have some more free time  
after lunch. However, please remember to come  
 back by 3:00 p.m. The movie will start at 3:30 p.m. at  
 the Megamax movie theater.
